

UP TO 32 PLAYERS

POWERED BY  X-CORP

THE INTERACTIVE NEXT-GEN PUB QUIZ

CLOOZ transforms the classic pub quiz into a fully interactive, self-service entertainment experience for bars, events, and leisure venues.

YOUR QUESTIONS. YOUR GAME.

By bringing together custom content, interactive hardware, and multi-language support, CLOQZ delivers a unique, scalable entertainment platform for international markets.

FULLY INTERACTIVE

CLOQZ transforms the classic pub quiz into a fully interactive, self-service entertainment experience designed for bars, leisure venues, and events. Combining smart technology with pure competition, it seamlessly scales from standard setups of 2 to 16 interactive desks (4 to 32 players) up to custom configurations for larger locations.

FULLY INTERACTIVE

Each player desk features an integrated display, e-ink feedback screen, and dynamic LED effects, while the central screen guides the entire experience with real-time rankings and visual effects. The system operates fully autonomously; players book, check in, and launch their game via a user-friendly touchscreen interface, making it perfect for both staffed and unmanned operations.

SCALABLE SETUP

2 to 16 desks (4–32 players) as standard, with options for larger spaces.

SMART HARDWARE

Individual desk displays, e-ink integration, dynamic LED lighting, and responsive controls.

SELF-SERVICE SYSTEM

Fully autonomous booking, check-in, and game control.

CUSTOM CONTENT

Rich ready-to-play library, plus easy tools for custom venue questions or personalized group rounds (corporate events, birthdays, bachelor parties).

MULTILINGUAL: Available in English, Dutch, German, and French.
